CONGRATULATIONS!

November 2018

Comfort Keeper of the Month

McKenna M.

McKenna joined our team in August 2017. Since the beginning, she has gone beyond expectations to provide excellent care to our clients and their family members. McKenna is reliable, dependable, and always ready to take on difficult assignments.

McKenna is sensitive to the needs and wants of her clients. One client's husband stated "McKenna is my wife's ray of sunshine. She always has a smile on her face and makes sure my wife is comfortable before leaving."

McKenna's compassion and dedication to her clients are only two things that make her an asset to our Comfort Keepers team. Her passion for helping those who need it, makes her an exemplary Comfort Keeper. Thank you, McKenna and Congratulations!

Why Comfort Keepers?

I chose Comfort Keepers and I have been here for 6 years because the owners and the staff treat us with respect and they are willing to step up for us.

What do you love about your job?

I love working with different clients and making a difference in their lives so that they can live a more productive life in their own home.

What makes you a successful CK?

I am considerate, kind, and respectful to the client's needs and wishes. Also, I enjoy working with seniors.

Two things you would like to share about yourself.

I am a good listener and very patient.

Words of wisdom you'd like to pass on to your TEAM members...

Treat the client the way you would want someone to treat you.

Now that the weather is cooler, it pays to be prepared for the unexpected. Plan extra time to allow for weather conditions and holiday/shopping traffic! We recommend all weather tires, have emergency car kits, and ice scrapers. **Your clients depend on you! PROCEED WITH CAUTION**

Maintenance Tips and Advice for Safe Winter Driving:

1. Check your battery level and tire tread.
2. Check your antifreeze
3. Replace wiper blades
4. Keep your gas tank at least half full
5. Practice cold weather driving in an empty parking lot. Steer into a skid
6. Don't get overconfident with four-wheel drive. It won't help you stop any faster.
7. Leave plenty of room for stopping and brake early. It takes more time to stop when the roads are wet or icy.
